EDUCATION

Year	Degree/Exam	Institute	CGPA/Marks
2024-2028	Bachelor of Technology (Computer Science and AI)	Newton School of Technology, Rishihood University	7.2/10.0
2022-2024	Intermediate (Class XII)	Central Public Senior Secondary School	8.7/10.0
2010-2022	Matriculation (Class X)	St Francis Senior Secondary School Hathras	9.5/10.0

INTERNSHIPS

Software Developer March 2025 - August 2025
Countrees AI *Remote*

- Developed backend logic and managed **structured data** across database-driven applications and ERP systems.
- Optimized database operations, data storage, and processing workflows to improve system efficiency and reliability.
- Contributed to backend architecture, system design, and data flow optimization for seamless application functionality.

PROJECTS

HealthWe (Github) September 2026

- Built an **AI-powered clinical documentation** platform to streamline medical record reviews, organize patient information, and reduce the risk of overlooking critical clinical details.
- Developed backend services using **Python, FastAPI, PostgreSQL, SQLAlchemy, Alembic, and Pydantic**, integrating **Anthropic Claude API** and **Streamlit** for clinical data extraction, citation validation, and detection.
- Structured medications, allergies, and laboratory results into clear clinical summaries, with planned **WhatsApp reminders**, **multi-hospital interoperability**, and **ABDM integration** for improved healthcare accessibility.

ANVIL (Github) September 2026

- **Development: Python, Git, GitHub**, and Textual to build an autonomous coding-agent harness that converts GitHub issues into verified code patches through automated debugging, patching, and testing.
- **Agent Architecture: LLMs** and **OpenAI-Compatible APIs** to implement a 9-phase workflow with tool calling, context management, execution budgets, loop detection, checkpoints, rollback, and Git worktree sandboxing.
- **Testing & Reliability: pytest**, automated patch validation, **repository test execution**, and **JSONL** execution traces with offline replay to verify code changes and track agent behaviour end-to-end.

SKILLS

- **AI / ML:** Generative AI, LangChain, Model Training, OpenAI API, Claude Code, LangGraph, Natural Language Processing, RAG, Gemini API
- **Frameworks & Libraries:** Tailwind CSS, React, Node.js, Express JS, FastAPI, Framer Motion, Matplotlib, Matplotlib & seaborn, NumPy, Pandas, Prisma ORM
- **Cloud & DevOps:** AWS, Docker, Docker Compose, Git and Github
- **Domain & Business Skills:** Canva, Analytics, Graphic Design, Figma
- **Computer Language:** HTML, CSS, JavaScript, Python
- **Databases & Data Tools:** MySQL, NoSQL, PostgreSQL, Firebase, Power BI, Excel, Tableau, Spreadsheet

EXTRA-CURRICULAR ACTIVITIES

- • **Director, Damru 2.0:** Led cultural event planning, team management, scheduling, and on-ground execution.
  • **Organizing Committee, Neutron 2.0:** Coordinated technical activities, participant management, and event .
  • **Junior Mentor:** Guided students in technical learning, academic progress, and hands-on project development.
  • **Hackathons:** Participated in 3 hackathons, achieving Top 10 through teamwork and innovative problem-solving.
